order of alex rider series

Published: September 3, 2026 | Index ID: #-

Introduction

Anthony Horowitz's **Alex Rider** series has captivated a generation of young readers with its fast paced espionage, razor sharp dialogue, and the relatability of its teenage protagonist. Since the first novel, *Stormbreaker*, was released in 2000, the series has expanded into a sprawling franchise that includes novels, graphic novels, and film adaptations. For newcomers and long time fans alike, one of the most common questions is **what is the order of Alex Rider series?** Understanding the correct sequence can enhance the reading experience, reveal hidden connections between storylines, and help readers navigate the complex web of spin offs and side stories. This guide provides a comprehensive look at the publication order, the chronological order of events, and the best ways to enjoy the entire Alex Rider universe.

Why the Order Matters

Unlike many classic literary series that follow a simple linear path, the Alex Rider books are interwoven with prequels, side stories, and spin off graphic novels that explore different facets of the world Horowitz created. Reading them out of sequence can lead to confusion over character development, plot twists, and the overarching narrative arc. For example, the revelation that Alex's father was a former MI6 operative is hinted at early on, but the full backstory is fleshed out in later books. Similarly, the relationship between Alex and his mentor, Ben, evolves significantly over time, and understanding this evolution requires a clear sense of where each book fits.

Publication Order of the Alex Rider Series

The most straightforward way to approach the series is to follow the order in which the books were published. This mirrors the way fans originally discovered the stories and often provides the intended pacing and character development as written by Anthony Horowitz. Below is a complete list of the main novels, graphic novels, and short stories in the order they first appeared.

1. Stormbreaker (2000) – The debut novel introduces Alex Rider, a 15 year old orphan who is recruited by MI6. The story is a thrilling mix of technology, espionage, and teenage angst.
2. Point Blanc (2001) – Alex infiltrates a covert boarding school that doubles as an international training facility for teenage terrorists.
3. Skeleton Key (2002) – A mysterious pharmaceutical company threatens the world with a deadly virus; Alex must stop them before they unleash it.
4. Eagle Strike (2003) – Alex's first mission abroad leads him to a shadowy organization that has been targeting his handlers.
5. Scorpia (2004) – The story centers on the infamous terrorist organization Scorpia, revealing Alex's first encounter with its ruthless leader.
6. Ark Angel (2005) – A space based missile platform becomes the target of a global conspiracy that Alex must thwart.
7. Snakehead (2006) – Alex is sent to Asia to investigate a drug trafficking network, exposing the reach of international crime.
8. Seasalt (2007) – A maritime thriller in which Alex must stop a rogue naval commander from unleashing a

biological weapon.

9. Snakehead (Graphic Novel) (2008) – A visual retelling of the Snakehead novel, offering a fresh perspective for readers who enjoy graphic storytelling.

10. Scorpia Rising (2008) – A sequel to the original Scorpia novel, this book brings back familiar antagonists and deepens the lore.

11. Alex Rider: The New Adventures (2009) – A collection of short stories that explore side plots and character backstories.

12. Alex Rider: The Graphic Novel (2009) – A compilation of the first six novels illustrated for a younger audience.
