1. ¿Me escuchas?

This is the most direct and widely understood version. It literally translates to "Do you hear me?" and works in everyday conversation.

3. ¿Entiendes lo que digo?

If you want to be explicit about comprehension, ask, “Do you understand what I’m saying?” This phrase is useful when you’re explaining something complex.

4. ¿Me captas?

Borrowed from English “catch,” this slangy expression is popular among younger speakers in Spain and Latin America. It’s informal and friendly.

5. ¿Te quedó claro?

In a more conversational setting, you might say, “Did it make sense to you?” This is often used after giving instructions.

6. ¿Lo oíste?
