This article dives deep into the novel's publication history, the circumstances surrounding its release, and why the date matters for readers, scholars, and book collectors alike.

The Birth of a Classic

Harper Lee's debut novel was born during a period of profound social change in America. Born in 1926 in Monroeville, Alabama, Lee grew up in a world where segregation was the law of the land, and the civil rights movement was just beginning to take shape. Her early exposure to injustice, combined with a keen observation of human nature, set the foundation for a narrative that would challenge readers' perceptions of morality and prejudice.

Early Drafts and Manuscript Development

Lee began writing the novel in the 1940s, drawing inspiration from her own experiences and the stories she heard from her father, a lawyer. The manuscript went through several revisions, with the final version taking shape in the late 1950s. By that time, Lee had moved to New York City, where she worked as a secretary for a literary agency while refining her manuscript. The book's title, "To Kill a Mockingbird," was suggested by her friend and future publisher, James M. McPherson, who recognized the metaphorical weight of the phrase.

Choosing a Publisher

In 1959, Lee met with a number of publishing houses. After a series of meetings, she signed a contract with **J. B. Lippincott & Co.**(now part of Penguin Random House). The publisher agreed to a modest print run of 25,000 copies, reflecting both enthusiasm for the manuscript and a cautious approach to a novel that tackled controversial themes.
