Ultimate RotMG Pet Guide: Mastering the World of Realm of the Mad God's Furry Companions

Realm of the Mad God (RotMG) is a fast paced, cooperative shooter that rewards teamwork, strategy, and a little bit of luck. Among the many elements that make the game exciting are the pets you can collect, upgrade, and use in combat. Pets are more than just cute companions; they provide buffs, unique abilities, and can even turn the tide of battle. This comprehensive RotMG pet guide will walk you through everything you need to know—from how to obtain your first pet to mastering the best pet class combos, upgrading strategies, and community tips. Whether you're a new player or a seasoned veteran, this guide will help you make the most of your pet's potential.

What Are RotMG Pets?

In RotMG, pets are companion characters that follow the player around the map. They can be summoned in the **Pet Shop** or found as drops from enemies, chests, and event rewards. Pets grant a variety of passive buffs to the player's stats or active abilities that can be triggered during combat. They also have their own health, resistances, and can be upgraded independently of the player's gear.

Key points:

- Passive Buffs: Many pets increase attributes such as strength, agility, or health.
- Active Abilities: Some pets provide unique spells or damage over time effects.
- Pet Leveling: Pets gain experience and level up, unlocking new abilities or enhancing existing ones.
- Synergy: Certain pets work better with specific classes or other pets.

How to Obtain Pets in RotMG

There are several ways to acquire pets, each with its own set of rewards and challenges. Below is a rundown of the most common methods.

1. Pet Shop

Every time you visit the Pet Shop, you pay a fee in **gold** and receive a random pet. The shop's inventory changes frequently, so you can find a variety of pets by repeatedly purchasing. The cost varies based on the rarity of the pet, but the shop offers a convenient way to start building your collection.

2. Chest Drops

Pets can drop from chests found throughout the world. Certain chests, such as **Gold Chests** and **Legendary Chests**, have higher drop rates for rare pets. Opening chests is a quick way to gather multiple pets at once, especially if you're exploring a new area.

3. Boss Drops

Defeating bosses can reward you with pets, especially in **Special Boss Events**. These drops are often exclusive or higher rarity, making them highly sought after by players looking to complete their collections.

4. Event Rewards

RotMG hosts seasonal and special events that grant pets as rewards. Keep an eye on the **Event Calendar** and participate in **Event Quests** to earn exclusive pets that are only available during those periods.

5. Pet Quest

Completing **Pet Quests** is another reliable way to acquire pets. These quests require you to defeat a certain number of enemies or gather specific items. Once completed, you receive a predetermined pet as a reward.

Types of Pets and Their Roles

Pets in RotMG are divided into several categories based on their abilities and the class they best support. Below are the main types and their typical roles in combat.

1. Strength Pets

These pets increase the player's melee damage. They are ideal for close quarters classes such as **Warrior** and **Gladiator**.

- Example: Brave Bear – boosts strength by 10%.

2. Agility Pets

Agility pets improve movement speed, evasion, or critical hit chance. They complement classes that rely on dodging and quick strikes, like **Rogue** and **Assassin**.

- Example: Swift Fox – increases agility by 15%.

3. Magic Pets

Magic pets provide bonuses to spell power, mana regeneration, or spell cooldowns. They are perfect for spell caster classes such as **Wizard** and **Cleric**.

- Example: Arcane Owl – boosts spell power by 12%.

4. Healing Pets

These pets heal the player or grant health regeneration over time. They are essential for tank classes that need to sustain in prolonged fights.

- Example: Healing Hound – heals 5% of max health per second.

5. Support Pets

Support pets grant a variety of buffs, such as increased resistance, speed, or crowd control. They are versatile and can be paired with almost any class.

- Example: Guardian Golem – grants 20% resistance to all damage types.

Choosing the Right Pet for Your Class

While pets are interchangeable, choosing the right pet for your class can significantly improve your performance. Below are some class specific recommendations.

Warrior & Gladiator

1. Brave Bear – Strength boost.
2. Guardian Golem – Resistance.
3. Healing Hound – Regeneration.

Rogue & Assassin

1. Swift Fox – Agility boost.
2. Shadow Cat – Stealth and damage over time.
3. Arcane Owl – Minor spell power for ranged attacks.

Wizard & Cleric

1. Arcane Owl – Spell power.
2. Healing Hound – Health regeneration.
3. Guardian Golem – Resistance to magic damage.

Archer & Hunter

1. Swift Fox – Agility for better aim.
2. Arcane Owl – Spell power for special arrows.
3. Healing Hound – Regeneration during long fights.

Pet Leveling and Upgrades

Pets in RotMG level up as they participate in combat. Each level unlocks new abilities or enhances existing ones. Here's how to maximize your pet's potential.

1. Pet Experience

Pets gain experience by dealing damage, taking damage, or using their abilities. The more you use a pet, the faster it levels up. Keep your pet active in combat to accelerate leveling.

2. Unlocking Abilities

At specific levels, pets unlock new abilities. These can be passive (e.g., increased damage) or active (e.g., a special attack). Pay attention to the pet's ability tree to decide which upgrades align with your playstyle.

3. Stat Increases

Each level typically grants a small increase to the pet's health, resistances, or stat bonuses. Over time, these incremental gains can become significant.

4. Pet Gear

Just like players, pets can equip gear that further boosts their stats. Pet gear is found in chests or dropped by bosses. Equipping gear that complements your pet's role amplifies its effectiveness.

Pet Combat Tips and Strategies

Using pets strategically can turn the tide in any battle. Below are actionable tips for maximizing pet utility.

1. Positioning Matters

Pets follow the player but can be positioned strategically. Keep pets behind you or in front of enemies to shield yourself from damage or to deliver attacks.

2. Use Active Abilities Wisely

Some pets have cooldowns on their active abilities. Time these abilities to hit high damage moments or to interrupt enemy casts.

3. Pair Pets for Synergy

Combining pets with complementary abilities can create powerful combos. For example, a **Healing Hound** paired with a **Brave Bear** provides both damage and sustain.

4. Keep Pets Alive

Pets can die in combat. If a pet dies, it will respawn after a short delay. To prevent losing valuable buffs, keep pets alive by healing them or using protective gear.

5. Pet Buff Rotation

Rotate pets based on the current encounter. For instance, swap a **Healing Hound** for a **Swift Fox**when you need more agility against fast enemies.

Best Pets for Different Situations

Below is a quick reference guide for selecting the best pets for common combat scenarios.

High Damage Bosses

- Brave Bear – Strength boost.
- Guardian Golem – Resistance.
- Arcane Owl – Spell power.

Large Enemy Swarms

- Healing Hound – Regeneration.
- Swift Fox – Agility to dodge.
- Shadow Cat – Damage over time.

Stealth Missions

- Shadow Cat – Stealth ability.
- Swift Fox – Increased movement speed.
- Arcane Owl – Quick spells.

Survival Runs

- Guardian Golem – High resistance.
- Healing Hound – Sustained healing.
- Brave Bear – Extra damage to finish enemies faster.

Pet Community and Resources

Engaging with the RotMG community can help you discover rare pets, trade gear, and learn new strategies. Here are some resources to get involved.

Official Forums

The **RotMG Forums**are a hub for discussions, pet trading, and event announcements. Search for pet guides, ask questions, and share your experiences.

Discord Servers

Many dedicated Discord communities exist for RotMG. These servers host pet specific channels where players share pet builds, trade gear, and coordinate group play.

Reddit

Subreddits such as r/RotMG provide user generated content, pet guides, and community events. Use the search

function to find pet specific threads.

Pet Specific Wikis

Third party wikis often contain exhaustive lists of
